ENSPIRE
A BOMA Initiative

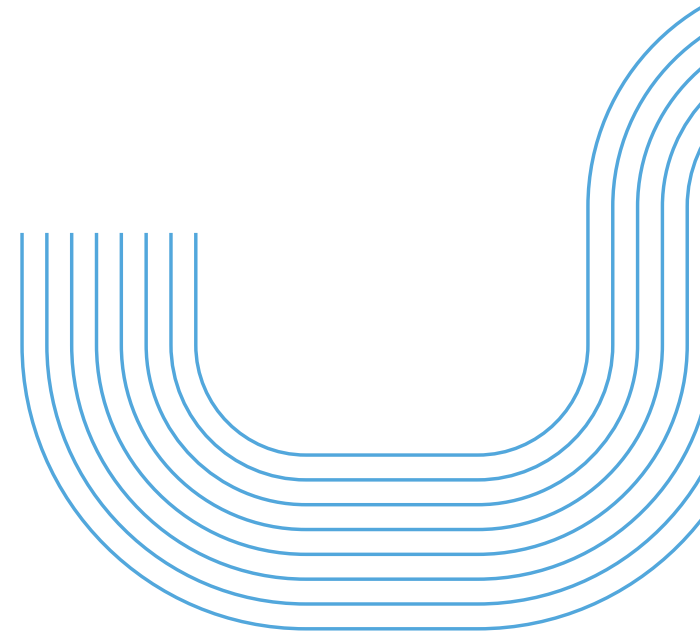

2025
Brand Identity Guide

BOMA Enspire Philosophy

BOMA Enspire carries the credibility and legacy of the BOMA name. This national retrofit accelerator program was introduced to inspire an actionable shift in the CRE industry by empowering and equipping mid-tier owners and operators to take advantage of practical, step-by-step tools, guidance, financial and technical support to ultimately achieve energy performance upgrades in their buildings.

Tone & voice

BOMA Enspire is friendly and conveys a sense of optimism and an approachable tone to relate with ease to those on the quest to decarbonize. Messaging to support program initiatives is clear and concise and benefit-focused.

Logo Safety

The unit of measurement is the shape from the 'i' in our logo. The height clearance on both the top to bottom and left to right is indicated here.

Logo Use

The full colour ENSpire logo should remain on a white or very light background. For legibility over gradients, the white version of the logo should be used.

With an Image

If used over an image must a dark brand colour behind it

On a Colour

This is the correct logo to use over medium to dark colour

Minimum Size

To ensure legibility do NOT use the logo smaller than 1.0 in by 0.26 in.

Do Not

Rotate logo

Do Not

Use on image alone

Do Not

Use on competing or on medium to dark colour

Brand Primary Colour Palette

Primary colours should be applied to text and as an accent in messaging.

In addition to the brand colours, “BOMA Blue” (Pantone 288) identified in the secondary palette should be considered as a primary colour in campaign communications.

The underlying **Inspiration**

Vibrant buildings, bright skies, lush greenier and the use of light come together to present a fresh, sustainable design. A fresh tone represents a commitment to energy efficiency and eco-conscious spaces. Layouts will provide flexibility to promote education sessions, special initiatives and awards seamlessly

Bold Gradients

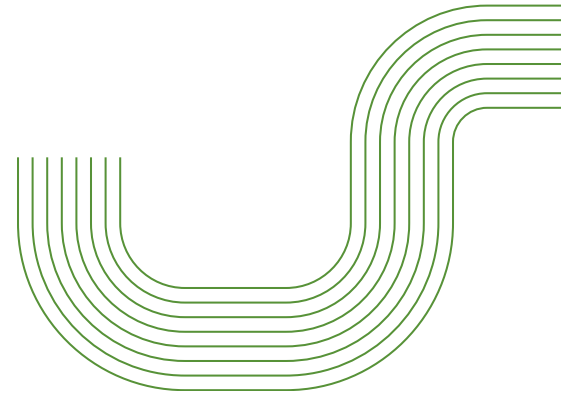

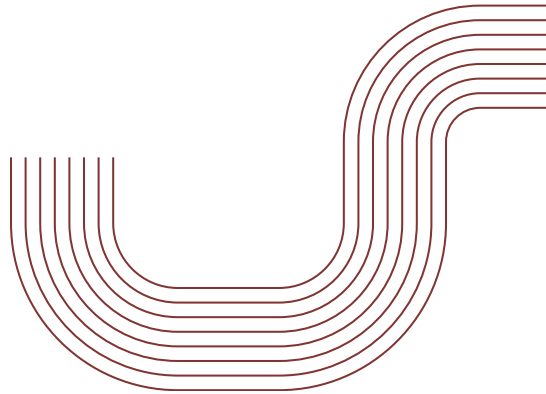

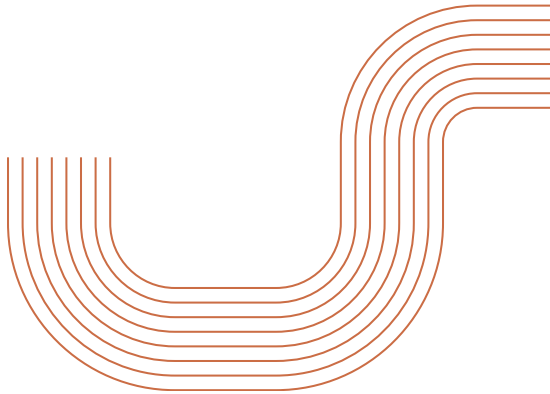

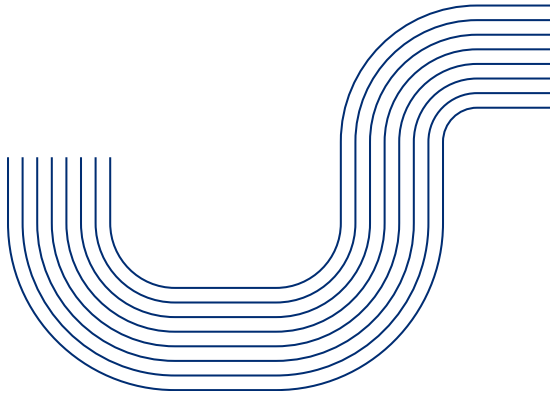

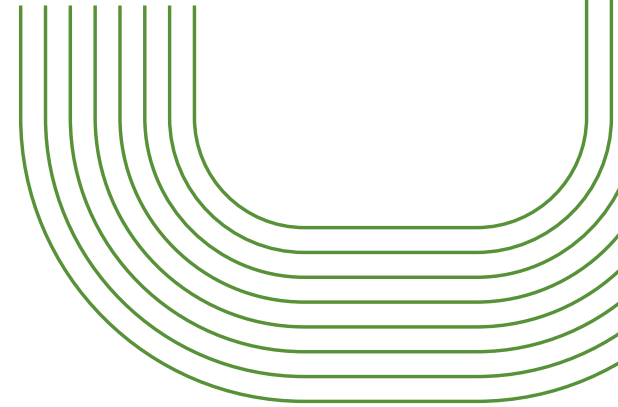

Gradients add contrast behind the messaging, with green as the primary gradient. To identify specific initiatives or content themes, gradients can also be applied using the secondary colour palette

Dynamic Lines

Sense of Movement

Repetitive lines symbolize momentum and progress and forward-thinking sustainability to drive action toward a greener future and should be incorporated as a feature in the creative. Placement of graphic imagery is flexible base on layout relationship to text and imagery.

Design Style

Sample Creative

Messaging will isolate specific benefits & showcase actions and opportunities. Real buildings, real challenges and solutions will be featured in campaign messages and creative whenever possible. For added emphasis, All Caps and use of coloured fonts can be applied to headings.
